

American Skin Association (ASA) Sanofi Investigative Scientist Award Atopic Dermatitis \$100,000

ASA invites the submission of applications for its 2024 Sanofi Investigative Scientist Award in Atopic Dermatitis in the amount of \$100,000 to foster the career development of a young investigator working at the level of instructor through associate professor in the field of dermatology or cutaneous biology. The aim of the program is to provide bridge support for young investigators. Special consideration will be given to individuals without significant prior support.

The individual must have a strong career goal within the field of dermatology and be dedicated to the furtherance of knowledge concerning atopic dermatitis. The research must be focused on new discoveries in the basic or translational medical sciences that impact the understanding or treatment of atopic dermatitis.

ELIGIBILITY:

There's no age limit to apply, but preference will be given to those under the age of 45 as of June 30, 2024 with a rank of instructor up through associate professor (or the institutional equivalent). Primary consideration will be granted to those working in a department or division of dermatology, and subsequent consideration will be extended to those with a close working relationship to dermatology.

If an MD, the candidate must be Board certified in dermatology with at least three years of in-depth experience in investigative dermatology. If a PhD, the candidate must have at least three years of postdoctoral or faculty-level experience in investigative dermatology.

The candidate must be identified as a current or future leader in dermatological investigation, and must spend at least 80% of his/her professional time in research.

CONTENTS OF APPLICATION:

An application **must** include:

1. **A letter from the applicant stating:**
 - a. a lay statement of 2-3 sentences describing the relevance of the proposed research
 - b. career goals and plans for achieving these goals
 - c. the relevance of the "support" at this time
 - d. acknowledgment of the requirement to submit a progress report (written for a layperson) and an expenditure report at six months and at the end of the award period
 - e. acknowledgement of the requirement to list ASA support in all presentations and publications
 - f. acknowledgement to keep ASA informed of current and future dates of presentations and/or publications
2. A 1-2 page **curriculum vitae** including education and training, academic appointments, key publications, and date of birth.
3. A letter (no more than two pages) written by the **Chair of Dermatology** on behalf of the candidate, covering the above requirements, endorsing the

applicant and the proposal, and confirming the institution's commitment to provide time and support to the applicant. Note: A Chair may endorse only ONE application for each grant award per year.

4. A **research proposal** (no more than two pages including references) prepared by the candidate detailing the title, purpose, materials, methods, and projected results. Proposals must be typed in **Arial 11 pt. type with 1-inch margins**. Note: Human and/or animal use must be approved by the Institutional Review Board or equivalent and documented before funding begins.
5. A timeline for accomplishing specific aims.
6. A line-item **budget and justification** for the research project must be attached. **Indirect costs to the sponsoring institution, travel expenses, salary and benefits are not permitted.**
7. A summary of ALL **past (5 years), present, and pending** research support specifying award titles, agencies, periods of support, and total direct costs.

All sources of funding must be disclosed by the awardee. The goal of ASA is to further the careers of junior investigators. These awards are not intended for established investigators with a major award such as an NIH R01. We recognize that many career development awards from other sources, such as the NIH, Dermatology Foundation, American Cancer Society, Melanoma Research Alliance, etc., fund the PIs salary only and/or allocate a small portion for other expenses, i.e., supplies or staff. In this case, the applicant should justify the rationale for receiving the ASA award and retaining the other award that they have received. If the ASA award and the other award significantly overlap in budget, the awardee must choose between it and this research award. If the other award is pending and subsequently chosen, any remaining installments of funding from ASA are forfeited.

DEADLINE AND APPLICATION FORMS:

Instructions and the online application are posted on our website: americanskin.org. **The deadline for receipt of applications is Friday, March 15, 2024 at 11:59 PM EST.** Incomplete applications will not be considered.

SELECTION PROCESS:

Recipients of the awards will be announced in June 2024 by ASA's Medical Advisory Committee. Funding will begin in July 2024. Please note: No-cost extensions will not be granted.

About American Skin Association:

Established to serve the now more than 100 million Americans afflicted with skin disorders, ASA has evolved over the past three decades as a leading force in efforts to defeat melanoma and other serious forms of skin disease. Its mission has remained to advance research, champion skin health, and drive public awareness. Please send questions to grants@americanskin.org.

American Skin Association (ASA) Bristol Myers Squibb Investigative Scientist Award Psoriasis & Related Biology \$100,000

ASA invites the submission of applications for its 2024 Bristol Myers Squibb Investigative Scientist Award in Psoriasis & Related Biology in the amount of \$100,000 to foster the career development of a young investigator working at the level of instructor through associate professor in the field of dermatology or cutaneous biology. The aim of the program is to provide bridge support for young investigators. Special consideration will be given to individuals without significant prior support.

American Skin Association (ASA) Mulvaney Family Foundation Research Grant Vitiligo/Pigment Cell Disorders \$15,000

American Skin Association (ASA) is accepting applications for support of research in **vitiligo/pigment cell disorders**.

ELIGIBILITY:

Applicants must be working actively in areas related to dermatology and vitiligo/pigment cell disorders. Funds may be used for support of a new or ongoing research/clinical investigation project. There is no age requirement. However, applicants without prior funding, who are in a formative stage of their career, or who are undergoing a mid-career research change, will be given preference.

CONTENTS OF APPLICATION:

An application **must** include:

1. **A letter from the applicant stating:**
 - a. a lay statement of 2-3 sentences describing the relevance of the proposed research
 - b. career goals
 - c. relevance of the grant at this time
 - d. acknowledgment of the requirement to submit a progress report (written in layman's language) and an expenditure report at the end of the grant period
 - e. acknowledgement of the requirement to list ASA support in all presentations/publications
 - f. acknowledgement to keep ASA informed of current and future dates of presentations and/or publications
2. 1-2 page **curriculum vitae** including education and training, academic appointments, key publications, and date of birth.
3. A **letter** (no more than two pages) **written by the Chair of Dermatology** on behalf of the candidate endorsing the applicant and the proposal, and confirming the institution's commitment to provide time and support to the applicant. Note: A Chair may endorse only ONE applicant in each grant award per year.
4. A **research proposal** (no more than two pages including references) prepared by the candidate detailing the title, purpose, materials, methods and projected results. Proposals must be typed in **Arial 11 pt. type with 1-inch margins**. Note: Human and/or animal use must be approved by the Institutional Review Board or equivalent and documented before funding is provided.
5. A timeline for accomplishing specific aims.
6. A line-item **budget** and justification for the research project must be attached. **Tuition, travel expenses, salary, and indirect costs to the sponsoring institution are not permitted.**
7. A summary of ALL **past (5 years), current, and pending applications** for research support, specifying grant titles, agencies, periods of support, and total direct costs. If none, please indicate.

All sources of funding must be disclosed by the awardee. We recognize that the PI may need more than one source of funding to move their research forward. If the PI has other research support, they must justify why the additional support from ASA is needed. If the ASA award and the other award significantly overlap in budget, the awardee must choose between it and this research award. If the other award is pending and subsequently chosen, any remaining installments of funding from ASA are forfeited.

DEADLINE AND APPLICATION FORMS:

Instructions and the online application are posted on our website: americanskin.org. **The deadline for receipt of applications is Friday, March 15th at 11:59 PM EST.** Incomplete applications will not be considered.

SELECTION PROCESS:

Recipients of the awards will be announced in June 2024 by ASA's Medical Advisory Committee. Funding will begin in July 2024. Please note: No-cost extensions will not be granted.

About American Skin Association:

Established to serve the now more than 100 million Americans afflicted with skin disorders, ASA has evolved over the past three decades as a leading force in efforts to defeat melanoma and other serious forms of skin disease. Its mission has remained to advance research, champion skin health, and drive public awareness about skin disorders and their often devastating impact.
